FEDERAL AID PROJECT NO. 0908(504)  
TURN LANES AT BUNCOMBE ROAD  
ROUTE LA 526  
CADDO PARISH

SUBJECT: ADDENDUM NO. 2 (CONSTRUCTION PROPOSAL REVISION)  
ELECTRONIC BIDDING AMENDMENT NO. 1

Gentlemen:

The following proposal revisions dated 05/18/09 on the captioned project for which bids will be received on Wednesday, May 27, 2009 have been posted on <http://www.dotd.la.gov/cgi-bin/construction.asp>.

1. Deleted the **Special Provision** entitled, NS-700-00120, Dynamic Message Sign Unit.
2. Added the **Special Provision** entitled, NS-713-00001, Dynamic Message Sign Unit.
3. Revised the **Schedule of Items** to reflect the re-numbering of Dynamic Message Sign Unit. (3 pages)

Please note these revisions in the proposal and bid accordingly. Mandatory electronic bidding is required for this project, and electronic bids and electronic bid bonds must be submitted via [www.bidx.com](http://www.bidx.com) for this letting date.

Sincerely,

RANDAL D. SANDERS, P. E.  
CONTRACTS & SPECIFICATIONS ENGINEER

Mr. Eric Burges  
Mr. Masood Rasoulian

**NS DYNAMIC MESSAGE SIGN UNIT (12/04):** This work consists of furnishing, operating and maintaining solar powered portable dynamic (changeable) message signs to be used at locations designated on the plans or as directed by the engineer.

The dynamic message sign shall be in good operational condition when delivered to the job site. The engineer will inspect the signs, and if they are found to be in good operational condition with all working parts functioning, the signs will be approved for use on the project.

The message sign shall consist of three separate lines. Each line shall consist of eight characters. Each character shall nominally be 18 inches (450 mm) in height. The width shall be adequate to meet the below legibility requirements. Each character shall be a 5 x 7 LED module or hybrid LED disk. Characters shall be separated at a distance such that the legibility requirements are maintained.

All internally illuminated portions of the sign shall be amber in color. All other illuminated surfaces meant for message display shall be fluorescent yellow. All other surfaces on the front panel shall be flat black in color.

The sign shall be clearly visible under all conditions and all lanes of travel from a distance of 1000 feet (300 m) perpendicular to the sign center. The sign shall maintain this legibility throughout the entire project. The contractor shall be responsible for maintaining this minimum legibility. Determination of legibility distance shall rest solely with the engineer.

The portable dynamic message sign shall be used in conjunction with other traffic signs and devices in accordance with the plans, project specifications and as directed by the engineer.

The signs shall be stored in an approved secure storage area when not in use. The contractor shall be required to perform all maintenance operations recommended by the manufacturer and keep adequate records of such operations.

The signs shall be kept clean and in good repair at all times. This includes keeping unit clean.

Measurement of the dynamic message sign unit will be per each.

Payment for the dynamic message signs will be made at the contract unit price per each which will be full compensation for furnishing, operating, relocating and maintaining the unit during the life of the contract and includes all equipment, tools, labor and incidentals necessary for this item of work.

Payment will be made under:
