What is **GEAUXPASS**?

GeauxPass is a transponder (toll tag) that is electronically linked to a prepaid account. The GeauxPass and associated account allows you to use Louisiana toll roads like the LA 1 Expressway without having to stop to pay for the toll. Toll fees are deducted electronically from the prepaid GeauxPass account.

How does **GEAUXPASS** work?

Depending on the type of your vehicle, the GeauxPass transponder is mounted in your vehicle windshield. When the vehicle drives beneath the overhead electronic toll collection equipment (called gantries), the equipment sends a signal to the GeauxPass transponder and the toll is collected electronically, deducting the appropriate toll amount from your GeauxPass account.

How much is a **GEAUXPASS**?

A non-removable GeauxPass toll tag cost \$1.59 each.

In addition to the toll tag fee, a toll pre-payment is required to open your GeauxPass account. Your GeauxPass account is the fund that tolls are deducted from each time you use a GeauxPass toll system. The minimum for this pre-payment is \$20 and may be made by cash, check, debit or credit card (MasterCard, Visa, Discover or Amex).
